## Reading makes a difference

Reading is the key to many day to day activities, both in pleasure and work. Without the skill of reading it is very difficult to turn our hand to many other tasks.

It is difficult to write a mystery story if you have never read one.

It is hard to empathise with others if you have never read how others may feel.

It is hard to learn about different cultures if you have never seen where they are on a map.

It is hard to find your way if you are unable to read the signs.

This year we at COVs are continuing the great work from last year, and through the Corby Reads project and urge you at home to help us to help your child to read.

Reading doesn't just need to be a reading book, it can be anything, comics, newspapers, manuals, video games boxes, the back of a cereal packet.

Whenever you see a opportunity **READ**.

It really makes a difference.
